

Tuesday 22 September 2009

Breakfast Session

Sponsored by Smith and Nephew

Parkside G04

0700 – 0745 The Use of Compression Garments in the Treatment of Lymphoedema
Etelka Földi (Germany) and Hans von Zimmermann (Germany)

Sessions 5: Lymphangiogenesis and Molecular Mechanisms of Control and Manipulation: The Microcirculation

0800 – 0840 KEYNOTES

Parkside I10A

Chair: Marc Achen and Co-Chair: Natasha Harvey

0800 – 0820 F-GROUP SOX AND LYMPHANGIOGENESIS

Matt Francois (Australia)

0820 – 0840 DEFINING SIGNALS THAT REGULATE LYMPHATIC VASCULAR DEVELOPMENT

Natasha Harvey (Australia)

0840 – 0950 Oral Presentations

0840 – 0850 Zebrafish and Medaka as New Animal Models to Study Lymphangiogenesis

Sumio Isogai (Japan)

0850 – 0900 Novel Discovery of LYVE-1 Expression in the Hyaloid Vascular System

Lu Chen (USA)

0900 – 0910 Lymphangiogenesis in the Rabbit Ear Using Autologous Stem Cells From Peripheral Blood Under Stimulation by G-CSF (Filgrastim)

Alberto Gersman (Argentina)

0910 – 0920 Monocytes Can Be Induced to Express the Lymphatic Markers

Hua Tian (China)

0920 – 0930 Lack of Lymphangiogenesis in Human Colon Cancer

Marek Stanczyk (Poland)

0930 – 0940 Lymphatic Vessel Culture and Gene Transfection

Anatoliy Gashev (USA)

0940 – 0950 Endogenous Anti-Lymphangiogenesis

Jorge Wilting (Germany)

Discussion Forum: Lymphological Equivalent of CEAP? Pros and Cons

0900 – 1000 Parkside G04

Chair: Mauro Andrade and Co-Chair: Michael Bernas

1000 – 1030 Morning Tea

Exhibition, Parkside Foyer

Session 6A: Blood Tissue Lymph I

1030 – 1110 KEYNOTES

Parkside 110A

Chair: Stanley Leong and Co-Chair: Colin Carati

1030 – 1050 BLOOD-TISSUE-LYMPH COMPARTMENTS AND INTERFACES

Colin Carati (Australia)

1050 – 1110 LYMPHATICS AND CANCER: SPREAD OR CONTAINMENT: FRIEND OR FOE

Stanley Leong (USA)

1110 – 1230 Oral Presentations

1110 – 1120 Anatomy of the Lymphatic System in the Pleura and Peritoneum With Particular Reference to Lymphatic Stomata

Yuko Ohtani (Japan)

1120 – 1130 Human Tonsil's Trichomonas and Reaction of Tonsil's Epithelium

Alexander Kuznetsov (Russia)

1130 – 1140 Microarchitecture of Prelymphatic System in Rat Liver with Special Reference to the Missing Link Between Portal Tract Interstitium and Lymphatic Vessels

Parkpoom Piyaman (Thailand)

1140 – 1150 Lymph Circulation in the Liver

Osamu Ohtani (Japan)

1150 – 1200 Harvesting and Cryopreservation of Lymphatic Endothelial Cells for Lymphatic Tissue Engineering

Zhaohua Jiang (China)

1200 – 1220 The Lymphatic Drainage Pattern of the Head, Neck and Anterior Upper Torso

Wei-Ren Pan (Australia)

1220 – 1230 Patterns of Lymphatic Invasion by Cancer Cells in Colorectal Cancer

Eikichi Okada (Japan)

Session 6B: Blood Tissue Lymph System II

1110 – 1230 Oral Presentations

Parkside 110B

Chair: Alexandre Pissas and Co-Chair: Waldemar Olszewski

1110 – 1120 Axillar Lymphadenectomy does not Explain the Apparition of a Secondary Lymphoedema

Alexandre Pissas (France)

1120 – 1130 Aging and Transport of Lymph

Anatoliy Gashev (USA)

1130 – 1140 Composition of the Lymph by the Study of Lymphocele: Preliminary Experience

Sandro Michelini (Italy)

1140 – 1150 Relationship Among Physiological, Anatomical and Clinical Measures of Lymphoedema

Elizabeth Dylke (Australia)

1150 – 1200 Formation of New Tissue Fluid Channels In Lymphoedematous Subcutaneous Tissue During Pneumatic Compression Therapy

Pradeep Jain (India)

- 1200 – 1210 Tissue Fluid Pressure/Volume Relationship In Obstructive Lymphoedema of Lower Limbs
Marta Cakala (Poland)
- 1210 – 1220 Wounds Evoke Reaction of the Lymphatic System – Does it Correlate With Healing?
Waldemar Olszewski (Poland)
- 1220 – 1230 Lymphatics Plastination A New Anatomical Model to Teach the Lymphatics System
Miguel Amore (Argentina)

1230 – 1400 Lunch Exhibition, Parkside Foyer

Lunchtime Session
Parkside G04

Sponsored by Reis Orthopaedics & Surgical Services P/L

- 1230 – 1400 Overview of Medi Compression Garments Introducing Medi 550 Thorax
Cordula Grimm (Germany)

Session 7: Phebiology: Lymph-Vascular Inter-Relationships

1400 – 1440 KEYNOTES

Parkside I10A

Chair: Kurosh Parsi and Co-Chair: Mark Malouf

- 1400 – 1420 VASCULAR ANOMALIES: WHEN THE VASCULAR SYSTEM IS COMPROMISED
Kurosh Parsi (Australia)
- 1420 – 1440 SURGERY – IMPROVING VASCULAR FUNCTION: MINIMISING COMPLICATIONS
Mark Malouf (Australia)

1440 – 1530 Oral Presentations

- 1440 – 1450 Venous Malformations and Lymphatic Dysplasias
Raul Mattassi (Italy)
- 1450 – 1500 Syndromic Overgrowth, Hemangiomas and Varicose Veins in Pediatrics. The Ten Commandments
Cristobal Papendieck (Argentina)
- 1500 – 1510 Combined Pelvic Vein Decatrisation and Iliac Vein Stenting for Chronic Lymphaticovenous Edema of Lower Extremity: Technical Consideration and Early Clinical Outcome
Wenhsien Hsu (Taiwan)
- 1510 – 1520 Early Stage LV Anastomosis
Kentaro Doi (Japan)
- 1520 – 1530 Use of Silver Dressing on Lymphoedema Venous Ulcer
Sivagame Maniya (Singapore)

1630 – 1800 SYDNEY HARBOUR CRUISE Captain Cook 3
Embark 1615 at Convention Wharf for 1630 departure
Don't forget to bring your camera
